BIOGRAPHY

Tanya'Lya is a Swiss artist of Franco-Moroccan origin.

Music entered her life at the age of 12 and immediately became an essential language. At 13, she performed on stage in Morocco during an improvised jam with professional musicians a defining experience.

She then performed across Switzerland, France, England, and Morocco: pop-rock bands, jazz and soul repertoires, open-air concerts, public events, and performances at the Arena in Geneva in front of thousands of spectators. Very early on, the stage became obvious to her.

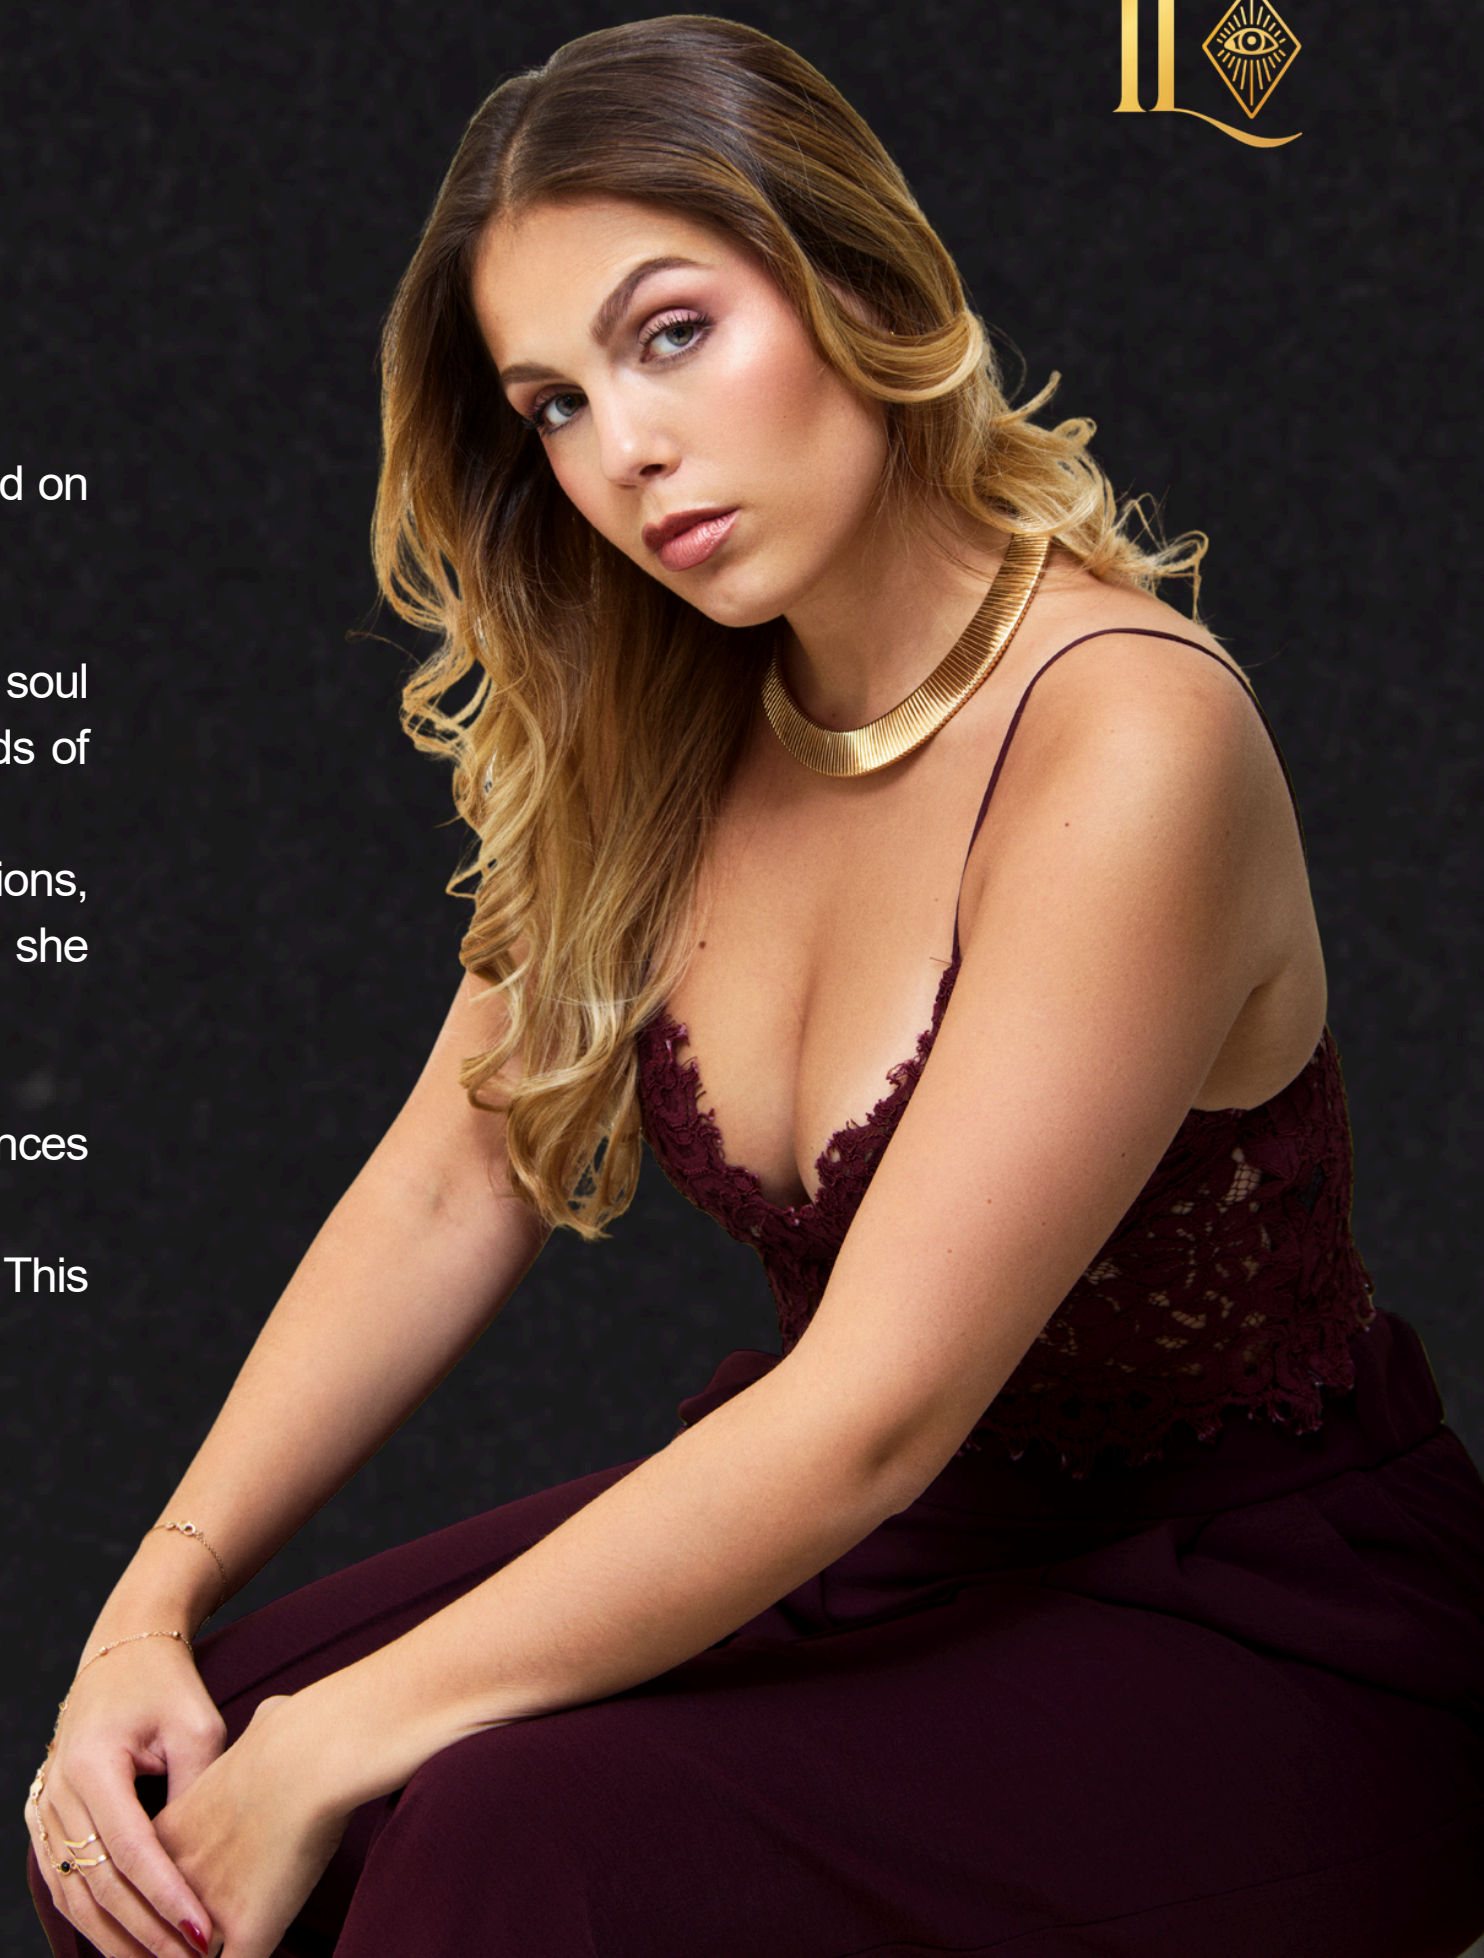

She continued her training at BIMM London in Popular Music Performance. Two years shaped by live sessions, jam nights, and intensive vocal work structured her artistic approach. Accepted into Berklee College of Music, she ultimately chose to build her own path.

Back in Switzerland, she developed her original projects. She released Reina, a featuring with Latin influences accompanied by a music video, followed by Mon Ange, an intimate ballad in French.

Today, she opens a new chapter with *In My World*, the first single of an upcoming English-language EP. This project marks a turning point: more direct writing, a clearer artistic direction, and a strong ambition.

Tanya'Lya moves forward with consistency, driven by a simple conviction: her place is on stage.

“La musique est mon refuge : elle canalise le feu de mes émotions et le fait rayonner.”

ARTISTIC CONCEPT

With *In My World*, **Tanya'Lya** opens a radiant and vibrant universe where emotion, intensity, and light meet. The single invites listeners to fully feel every nuance, carried by a soulful voice that moves through emotions with strength and authenticity.

The EP *In My World* extends this vision: each track explores a unique color and energy, oscillating between power, softness, and sensuality. Tanya'Lya plays with contrasts intimacy and brilliance, depth and movement — to create an immersive and luminous musical experience.

Through embodied lyrics and vibrant atmospheres, each song becomes an emotion of its own, giving the listener the freedom to connect and relate. Gradually, a strong artistic signature emerges: a radiant pop, intense and deeply human.

Future live performances will extend this universe: a powerful voice, a unique energy, and a luminous presence designed to transform each concert into a moment of connection and shared emotion.

A sonic journey that transcends words, where every note vibrates, illuminates, and connects emotions.
